

Domestic Rabbit Abandonment

Don't do it !

She'll probably suffer, becoming injured or sick. She may become food for other animals or she may end up as roadkill. Pet rabbits lack the survival skills of wild rabbits.

Rabbits can wreak havoc on the environment in the daily struggle to survive. It's not an easy life.

Pet abandonment is also prohibited by law !

Have a heart. Be responsible. Do not release your unwanted rabbit. If you need help or want further information, contact the Rabbit Advocacy Group of BC.
